CONTENTS TO VOLUME 261

Number 1

Ages of Intrusion and Metamorphism in the Northern Appalachians

Geologic Features Demonstrating Aridity of McMurdo Sound Area,
   Antarctica ..............................................................*Robert L. Nichols* 20

Distribution of Iron between Coexisting Olivines and Calcium-poor
   Pyroxenes in Peridotites, Gabbros, and other Magnesian Environments
   .................................................................*M. J. O’Haro* 32

The Solubility of Carbon Dioxide above 100°C in Water and in Sodium
   Chloride Solutions ..............................................*A. J. Ellis and R. M. Golding* 47

Use of Hydrothermal Solution Equipment to Determine the Solubility
   of Anhydrite in Water from 100°C to 275°C and from 1 bar to
   1000 bars Pressure
   *F. W. Dickson, Charles W. Blount, and George Tunell* 61

Thermal Decomposition of Portlandite and Xonotlite to High Pressures
   and Temperatures ..............................................*Carl W. F. T. Pistorius* 79

An Early American Statement of the Badon Ghyben-Herzberg Principle
   of Static Fresh-water-Salt-water Balance ..............*C. W. Carlston* 88

DISCUSSION

Age and Classification of Some Taconic Stratigraphic Units on the Centennial Geologic Map of Vermont: A Discussion .................................................................*E-an Zen* 92

Reply
*Charles G. Doll, Wallace M. Cady, James B. Thompson, Jr., and Marland P. Billings* 94
