CONTENTS

Number 8

Some principles of geyser activity, mainly from Steamboat Springs, Nevada ......................... Donald W. White 641

Graphical extrapolation for critical composition of binary system
Takashi Fujii 685

Graphical determination of critical temperature of binary system
Takashi Fujii 692

Segregation vesicles in basaltic lava .............. Raymond E. Smith 696

Feldspar-liquid equilibria in peralkaline acid liquids: an experimental study ........ R. N. Thompson and W. S. MacKenzie 714

NOTE

Iron-rich basalt from Bombay, India ........... D. C. Noble and R. N. Sukheswala 735

REVIEW

Geologic map of Tennessee; by William D. Hardeman, Robert A. Miller, and George D. Swingle ...................................................... John Rodgers 736
