

## NUMBER 7

**SYMPOSIUM: PLATE TECTONICS**

Preface .....	<i>William R. Dickinson</i>	549
Evidence for plate-tectonic regimes in the rock record	<i>William R. Dickinson</i>	551
Evolution of the Canadian Cordillera: a plate-tectonic model	<i>J. W. H. Monger, J. G. Souther, and H. Gabrielse</i>	577
Cordilleran tectonics and North American plate motion	<i>Peter J. Coney</i>	603
Metamorphism and related magmatism in plate tectonics	<i>Akiho Miyashiro</i>	656
Occurrence and mineralogic evolution of blueschist belts with time	<i>W. G. Ernst</i>	657

**REVIEWS**

Comparative study of Low-Grade Metamorphism in the California Coast Ranges and the Outer Metamorphic Belt of Japan; by W. G. Ernst, Y. Seki, H. Onuki, M. C. Gilbert .....	<i>R. G. Coleman</i>	669
Strain Facies; by Edward Hansen .....	<i>Richard P. Nickelsen</i>	670
Microtectonics along the western edge of the Blue Ridge, Maryland and Virginia; by Ernst Cloos .....	<i>John Rodgers</i>	671
Physical Geography—A Systems Approach; by Richard J. Chorley and Barbara A. Kennedy .....	<i>Frank Ahnert</i>	672
Evolution of the Earth; by Robert H. Dott, Jr., and Roger L. Batten	<i>John H. Ostrom</i>	674
