

NUMBER 8

Some topological relationships in multisystems of $n + x$ phases III. Ternary Systems	<i>E-an Zen and E. H. Roseboom, Jr.</i>	677
Geometrical analysis of phase equilibria in ternary systems of six phases	<i>Howard W. Day</i>	711
Equilibria in the system Fe–C–O Part I: Siderite–magnetite–carbon– vapor equilibrium from 500 to 10,000 bars	<i>Jerry R. Weidner</i>	735
New shelly fossils from Nama Group, South West Africa <i>Gerard J. B. Gerns</i>		752
Pseudomeanders and point dunes—a flume study <i>Edward J. Hickin</i>		762

REVIEWS

Fundamentals of Aeronomy; by R. C. Whitten and I. G. Poppoff <i>James C. G. Walker</i>		800
Seismicity of the European Area, Part II; by Vit Karnik	<i>Max Wyss</i>	800
Volcanic Landforms and Surface Features—a Photographic Atlas and Glossary; edited by Jack Green and Nicholas M. Short	<i>Timothy Loomis</i>	801
Les grès du Paléozoïque inférieur au Sahara—Sédimentation et discontinuités, Évolution structurale d'un craton; by S. Beuf, B. Diyu-Duval, O. De. Charpal, P. Rognon, O. Gariel, and A. Bennacef	<i>Robert E. King</i>	802
