

NUMBER 9

The development of the Superior Province of northwestern Ontario by merging island arcs	<i>F. F. Langford and J. A. Morin</i>	1023
The thermodynamics of seawater at one atmosphere <i>Frank J. Millero and Wing H. Leung</i>		1035
Geochronology and paleomagnetism of a Miocene–Pliocene lava sequence at Bessastadaá, eastern Iceland <i>Ian McDougall, N. D. Watkins, and L. Kristjansson</i>		1078
Burial metamorphism of the Karmutsen volcanic rocks, north- eastern Vancouver Island, British Columbia <i>S. Kuniyoshi and J. G. Liou</i>		1096
An index of crystallinity for quartz <i>K. J. Murata and M. B. Norman, II</i>		1120
Strain and pressure solution in the Martinsburg slate, Delaware Water Gap, New Jersey	<i>Richard H. Groshong, Jr.</i>	1131
Silicate liquid immiscibility: its probable extent and petrogenetic significance	<i>A. R. Philpotts</i>	1147

DISCUSSION

Fossil data and the Precambrian-Cambrian evolutionary transition—discussion <i>Kenneth M. Towe</i>		1178
Reply	<i>Steven M. Stanley</i>	1180

REVIEW

The facies of regional metamorphism at high pressures; by N. L. Dóbrešov, V. S. Sóbolev, N. V. Sóbolev, V. V. Khlestov; edited by V. S. Sóbolev; trans- lated by D. A. Brown	<i>R. G. Coleman</i>	1182
