

NUMBER 8

Pyrite and siderite formation in brackish and freshwater swamp sediments	<i>Dieke Postma</i>	1151
The origin of platform dolomites: new evidence <i>Eytan Sass and Amitai Katz</i>		1184
Mechanism of pyroxene and amphibole weathering II. Observa- tions of soil grains	<i>Robert A. Berner and Jacques Schott</i>	1214
Chemical weathering of orthopyroxenes under lateritic conditions <i>D. B. Nahon and F. Colin</i>		1232
Pyrite texture, isotopic composition and the availability of iron <i>R. Raiswell</i>		1244
Toward a master equation in crystal growth	<i>Antonio C. Lasaga</i>	1264
Gravity studies of subsurface mass distributions of granitic rocks in Maine and New Hampshire <i>Dennis S. Hodge, Dale A. Abbey, Michael A. Harbin, Janice L. Patterson, Michael J. Ring, and John F. Sweeney</i>		1289
The brucite-periclase equilibrium at reduced H ₂ O activities: some information about the system H ₂ O–NaCl	<i>G. Franz</i>	1325

REVIEW

Pleistocene Mammals of North America; by Bjorn Kurtén and Elaine Anderson <i>Bruce J. MacFadden</i>		1340
Errata		1341
