

NUMBER 6

- Detrital modes of upper Paleozoic sandstones derived from Antler orogen in Nevada: implications for nature of Antler orogeny
William R. Dickinson, Dwight W. Harbaugh, Arthur H. Saller, Paul L. Heller, and Walter S. Snyder 481
- Petrologic and geochemical variations along the Mid-Atlantic Ridge from 29°N to 73°N
J-G. Schilling, M. Zajac, R. Evans, T. Johnston, W. White, J. D. Devine, and R. Kingsley 510
- Relationship of deformation and metamorphism of the Pelona Schist to movement on the Vincent thrust, San Gabriel Mountains, southern California *Carl E. Jacobson* 587
- Strain on a gneiss dome in the Albion Mountains metamorphic core complex, Idaho *David M. Miller* 605

REVIEWS

- Orogenic Andesites and Plate Tectonics; by James B. Gill *Warren Hamilton* 633
- The Mineralogy, Chemistry and Physics of Tropical Soils with Variable Charge Clays; by Goro Uehara and Gavin Gillman *Paul R. Bloom* 634
- Geomorphological Techniques; edited by Andrew Goudie *Dale F. Ritter* 636
