

## NUMBER 7

- Grain-scale stable isotope disequilibrium during fluid-rock interaction:  
Part 1. Analytical solutions for advective dispersive transport and  
first-order kinetic mineral-fluid exchange  
*R. Abart and R. Sperb* 679
- Part 2. An example from a Penninic-Lower Austroalpine tectonic  
contact in eastern Switzerland  
*H. Eppel and R. Abart* 707
- A geologic history of the north-central Appalachians  
Part 2. The Appalachian basin from the Silurian through the  
Carboniferous  
*Rodger T. Faill* 729

## NOTE

- A note on the terrane concept, based on an Introduction to the  
Terrane '97 Conference, Christchurch, New Zealand, February  
1997  
*D. S. Coombs* 762
