

## NUMBER 8

- Modeling chemical mass transfer in geochemical processes: thermodynamic relations, conditions of equilibria, and numerical algorithms  
*Igor K. Karpov, Konstantin V. Chudnenko, and Dmitri A. Kulik* 767
- Pyrrhotite leaching in acid mixtures of HCl and H<sub>2</sub>SO<sub>4</sub>  
*Allen R. Pratt and H. Wayne Nesbitt* 807
- Interlayer cation effects on the hydration state of smectite  
*Javier Cuadros* 829
- Landscape development as indicated by basin morphology and the magnetic polarity of cave sediments, Crawford Upland, south-central Indiana  
*Patrick P. Pease and Basil Gomez* 842
