

American Journal of Science

JUNE 2001

CONTENTS

- Chemical weathering of basalts, southwest Iceland: effect of rock crystallinity and secondary minerals on chemical fluxes to the ocean
Andri Stefánsson and Sigurdur R. Gíslason 513
- A thermodynamic model for FE-MG aluminous chlorite using data from phase equilibrium experiments and natural pelitic assemblages in the 100° to 600°C, 1 to 25 kb range
Olivier Vidal, Teddy Parra, and Fabien Trotet 557
- ESSAY REVIEW
- The Geology of Switzerland—An Introduction to Tectonic Facies by K. J. Hsü
A. M. C. Şengör 593
