

American Journal of Science

OCTOBER 2003

CONTENTS

Perturbation of the carbon cycle at the Middle/Late Jurassic transition: Geological and geochemical evidence <i>Gilles Dromart, Jean-Pierre Garcia, Fabrice Gaumet, Stephanie Picard, Mathieu Rousseau, Francois Atrops, Christophe Lecuyer and Simon M. F. Sheppard</i>	667
On the mathematics of associated solutions <i>Victor C. Kress</i>	708
Stability and thermodynamic properties of ferro-actinolite: A re-investigation <i>David M. Jenkins and Krassimir N. Bozhilov</i>	723
