

# American Journal of Science

JUNE 2006

## CONTENTS

- Chemical and thermal constraints on focussed fluid flow in the lower oceanic crust 389  
*L. A. Coogan, K. A. Howard, K. M. Gillis, M. J. Bickle, H. Chapman, A. J. Boyce, G. R. T. Jenkin, and R. N. Wilson*
- The crustal structure of the Northern Apennines (central Italy): An insight by the CROP03 seismic line 428  
*Cristina Pauselli, Massimiliano R. Barchi, Costanzo Federico, M. Beatrice Magnani and Giorgio Minelli*
- Effects of organic ligands on granite dissolution in batch experiments at pH 6 451  
*Alexander Neaman, Jon Chorover, and Susan L. Brantley*
