

American Journal of Science

JANUARY 2011

CONTENTS

- Geologic constraints on the glacial amplification of Phanerozoic climate sensitivity
Jeffrey Park and Dana L. Royer 1
- Tectonic significance of ductile deformation in low-grade sandstones in the mesozoic Otago subduction wedge, New Zealand
Jeffrey M. Rahl, Mark T. Brandon, Hagen Deckert, Uwe Ring, and Nick Mortimer 27
- Declining atmospheric CO₂ during the late Middle Eocene climate transition
Gabriela Doria, Dana L. Royer, Alexander P. Wolfe, Andrew Fox, John A. Westgate, and David J. Beerling 63
