

American Journal of Science

APRIL 2013

CONTENTS

- Modeling novel stable isotope ratios in the weathering zone
Julien Bouchez, Friedhelm Von Blanckenburg, and Jan A. Schuessler 267
- Clumped isotopic equilibrium and the rate of isotope exchange between CO₂
and water
Hagit P. Affek 309
- Mountain-building under extension
Till Sachau, Daniel Koehn, and Cees Passchier 326
- Country rock monazite response to intrusion of the Searchlight pluton, southern Nevada
John C. Ayers, Scott Crombie, Miranda Loflin, Calvin F. Miller, and Yan Luo 345
