

American Journal of Science

MAY 2015

CONTENTS

- The kinetics of solid-state isotope-exchange reactions for clumped isotopes: A study of inorganic calcites and apatites from natural and experimental samples
Daniel A. Stolper and John M. Eiler 363
- The geodynamics of faults and petroleum migration in the Los Angeles basin, California
Byeongju Jung, Grant Garven, and James R. Boles 412
- Detrital zircons from modern sands in New England and the timing of Neoproterozoic to Mesozoic magmatism
Dwight C. Bradley, Paul O'Sullivan, and Lauren M. Bradley 460
- Discussion: Taconian orogenesis, sedimentation and magmatism in the southern Quebec-northern Vermont Appalachians: Stratigraphic and detrital mineral record of Iapetan suturing
Cees R. van Staal, Reginald A. Wilson, and William McClelland 486
- Reply to Discussion: Taconian orogenesis, sedimentation and magmatism in the southern Quebec-northern Vermont Appalachians: Stratigraphic and detrital mineral record of Iapetan suturing
Stéphane De Souza, Alain Tremblay, and Gilles Ruffet 501
- Addendum to the Reply of De Souza and Others
Cees R. van Staal, Reginald A. Wilson, and William McClelland 507
