

American Journal of Science

JUNE 2016

CONTENTS

- The exhumation history of the European Alps inferred from linear inversion of thermochronometric data
Matthew Fox, Frédéric Herman, Sean D. Willett, and Stefan M. Schmid 505
- Cosmogenic-nuclide exposure ages from the Pensacola Mountains adjacent to the Foundation Ice Stream, Antarctica
Greg Balco, Claire Todd, Kathleen Huybers, Seth Campbell, Michael Vermeulen, Matthew Hegland, Brent M. Goehring, and Trevor R. Hillebrand 542
- A volume equation of state that extends thermodynamic datasets, using the Bridgman Power Series, to very high pressures (20 GPa)
Erik Duesterhoeft 578
