CONTENTS

- Bridging the gap between the foreland and hinterland I: Geochronology and plate tectonic geometry of Ordovician magmatism and terrane accretion on the Laurentian margin of New England
Paul Karabinos, Francis A. Macdonald, and James L. Crowley 515
- Bridging the gap between the foreland and hinterland II: Geochronology and tectonic setting of Ordovician magmatism and basin formation on the Laurentian margin of New England and Newfoundland
Francis A. Macdonald, Paul M. Karabinos, James L. Crowley, Eben B. Hodgkin, Peter W. Crockford, and John W. Delano 555
- A refined view of the thermodynamic mixing quantities for alkali feldspars and the quandary of excess configurational entropy
Guy L. Hovis 597
