CONTENTS

Foreword

Jill A. VanTongeren, E. Bruce Watson, and Mark S. Ghiorso iii

Magmatic processes leading to compositional diversity in igneous rocks: Bowen (1928) revisited

Timothy L. Grove and Stephanie M. Brown 1

On the importance of crystallization-differentiation for the generation of SiO₂-rich melts and the compositional build-up of arc (and continental) crust

Oliver Jagoutz and Benjamin Klein 29

Arc crust formation and differentiation constrained by experimental petrology

Othmar Müntener and Peter Ulmer 64

Rejuvenation of crustal magma mush: A tale of multiply nested processes and timescales

Frank J. Spera and Wendy A. Bohrson 90

Volatile-bearing partial melts beneath oceans and continents—Where, how much, and of what compositions?

Rajdeep Dasgupta 141
