

NUMBER IV.

	Page
ART. XXXIII.—Notice of the discovery of a Cave in Eastern Pennsylvania, containing remains of Post-Pliocene Fossils; by CHARLES M. WHEATLEY,-----	235
XXXIV.—On the Geology of the Delta, and the Mudlumps of the Passes of the Mississippi; by EUG. W. HILGARD,-----	238
XXXV.—Contributions to Physics from the Lawrence Scientific School.—No. 1; by S. P. SHARPLES,-----	247
XXXVI.—Notes on the Geology of Santa Domingo; by WM. M. GABB,-----	252
XXXVII.—On Spore-cases in Coal; by J. W. DAWSON,-----	256
XXXVIII.—On a method of fixing, photographing and exhibiting the Magnetic Spectra; by ALFRED M. MAYER,-----	263
XXXIX.—Notice of a Fossil Forest in the Tertiary of California; by O. C. MARSH,-----	266
XL.—On the Determination of the Alkalies in Silicates by ignition with Carbonate of Lime and Sal-ammoniac; by J. LAWRENCE SMITH,-----	269
XLI.—On the Great Sun-spot of June, 1843; by DANIEL KIRKWOOD,-----	275
XLII.—Calorimetric Investigations; by R. BUNSEN,-----	277
XLIII.—On the Solar Protuberances; by L. RESPIGHI,-----	283
XLIV.—Brief Contributions to Zoölogy from the Museum of Yale College. No. XIII.—Descriptions of new Ascidians from New England; by A. E. VERRILL,-----	288
XLV.—Amazonian Drift; by CH. F. HARTT,-----	294

SCIENTIFIC INTELLIGENCE.

- Chemistry and Physics.*—On some Lecture-experiments, JULIUS THOMSEN, 296.—On Ozone and Antozone, ENGLER and NASSE, 297.—On the Peroxides obtained by Electrolysis, WERNICKE, 298.—A Laboratory Text-book of Practical Chemistry; or Introduction to Qualitative Analysis, WM. G. VALENTIN, 299.—A Series of Chemical Problems for use in Colleges and Schools, T. E. THORPE, 300.
- Geology and Natural History.*—California Geological Survey, 300.—Geological Survey of Illinois, 301.—Burning of the State Geological Rooms at Springfield, Ill., 303.—Report of the Geological Survey of Iowa, Vol. II: Historical notes of the Earthquakes of New England, W. T. BRIGHAM, 304.—Preliminary notice of a new species of Trimerella, from Ohio, F. B. MEEK, 305.—The Phosphate Rocks of South Carolina, F. S. HOLMES: South African Diamonds: *Sciadopitys verticillata*, 306.—Musci Appalachiani, specimens of Mosses collected mostly in the Eastern part of North America, C. F. AUSTIN: Report on the Progress of the State Geological Survey of Michigan, by ALEX. WINCHELL: Annual Report of the State Geologist of New Jersey, 1870, 307.
- Astronomy.*—Transit of Venus in 1874, ASAPH HALL, 307.—On a Meteor seen at Konisha, Minn., T. M. YOUNG: Fall of Meteoric Stones at Concord, Ohio, 308.
- Miscellaneous Scientific Intelligence.*—Recent Auroral displays in the United States: On the Color of Lake Geneva and the Mediterranean Sea, 309.—A new Manual of Logarithms to seven places of decimals, Dr. BRUHNS: Valuation Tables on the "Combined Experience" or "Actuaries" Rate of Mortality, ELIZUR WRIGHT: The "Pliocene Skull," Illustrated, 310. Chas. Mayer Wetherill, 310.
