

## NUMBER CLIV.

	Page
ART. XXIX.—Some controverted points in Geological Climatology; a reply to Professor Newcomb, Mr. Hill and others; by J. CROLL, .....	249
XXX.—Minerals of the Cryolite group recently found in Colorado; by W. CROSS and W. F. HILLEBRAND, .....	271
XXXI.—Origin and Hade of Normal Faults; by W. J. MCGEE, .....	294
XXXII.—Sensitiveness of the Eye to Slight Differences of Color; by B. O. PEIRCE, JR., .....	299
XXXIII.—Injury sustained by the Eye of a Trilobite at the time of the Moulting of the Shell; by C. D. WALCOTT, ..	302
XXXIV.—Dip of the Rocks in Central New York; by S. G. WILLIAMS, .....	303
XXXV.—Physiological Optics; by T. W. BACKHOUSE, ....	305

## SCIENTIFIC INTELLIGENCE.

*Chemistry and Physics.*—Possible Variability of the Law of Definite Proportions, J. P. COOKE, 310.—Spectrum of Beryllium. HARTLEY, 316.—Relation between the Density and the Chemism of the Elements in different Allotropic states, MÜLLER-ERZBACH, 317.—Behavior of Nascent Hydrogen in presence of Oxygen gas, TRAUBE, 318.—New form of Electrical Accumulator, J. ELSTER and H. GEITEL, 319.—Apparatus for the Demonstration of Foucault's Currents. A. VON WALTENHOFEN: Dependence of the Magnetizing Function of Steel upon its Hardness, H. MEYER: Experiments bearing upon the Electro-magnetic Theory of Light, QUINCKE, 320.—Method of determining the Ohm, GRAY: New Seismometer, EWING: Infra red spectra, H. BECQUEREL, 321.

*Geology and Botany.*—Paramorphic Origin of the Hornblende of the Northwestern States, R. D. IRVING, 321.—Grasses of the United States, G. VASEY, 322.—Contributions to American Botany, S. WATSON, 323.—Fertilization of Flowers, H. MÜLLER, 324.

*Miscellaneous Scientific Intelligence.*—American Association for the Advancement of Science at Minneapolis, 325.—British Association, 332.

*Obituary.*—J. REINHARD BLUM; WILLIAM A. NORTON, 332.
