

NUMBER CLVI.

	Page
ART. XLVIII.—Some points in Botanical Nomenclature; a Review of "Nouvelles Remarques sur la Nomenclature Botanique, par M. Alph. de Candolle," Geneva, 1883; by ASA GRAY,-----	417
XLIX.—Pre-Carboniferous Strata in the Grand Cañon of the Colorado, Arizona; by C. D. WALCOTT,-----	437, 484
L.—Contributions to Meteorology; by ELIAS LOOMIS. With Plates, I, II, III,-----	442
LI.—A Brief Study of Vesta; by M. W. HARRINGTON,-----	461
LII.—New Form of Selenium Cell, and some Electrical discoveries made by its use; by C. E. FRITTS,-----	465
LIII.—The Ischian Earthquake of July 28, 1883; by C. G. ROCKWOOD, JR.,-----	473

SCIENTIFIC INTELLIGENCE.

Chemistry and Physics.—A method of isolating heat radiation from the luminous and actinic radiations, VAN ASSCHE, 476.—Telluric oxygen lines, EGOROFF: A new capillary electrometer, CHEVET: Hall's phenomenon, RIGHI, 477.—Note on the vortex-atom theory, J. CROLL, 478.

Geology and Natural History.—Geology of the Comstock Lode and the Washoe District, G. F. BECKER, 479.—U. S. Geological Survey: Field Work in the Great Basin, 482.—Vol. VII of the Geology and Paleontology of Illinois: Recent formation of crystals of Cerussite, M. LACROIX: Volumes I and II of the Reports on the Geology of Wisconsin: Supposed Glacial striæ on Locust Mountain, Pa., 483.—The Pre-Carboniferous Strata in Arizona, C. D. WALCOTT: Notes on a new Topaz locality, R. T. CROSS, 484.—Jeremejeffite and Eichwaldite, 485.—Mineralogical Notes, E. CLAASSEN: Phytogeogenesis, O. KUNZE, 486.—Catalogue of the Phænogamous and Vascular Cryptogamous Plants of Worcester Co., Massachusetts, J. JACKSON, 487.

Miscellaneous Scientific Intelligence.—Ice of Greenland and the antarctic, J. CROLL, 488.—National Academy of Sciences, 489.—Signal Service Professional Papers, 490.

Obituary.—JOHN LAWRENCE LeCONTE, LEONARD D. GALE, 490.

INDEX TO VOLUME XXVI, 491.
