

# CONTENTS OF VOLUME III.

## NUMBER XIII.

	Page
ART. I.—On Alpine Geology; by T. STERRY HUNT, .....	1
II.—Supplementary Note on the Genus <i>Lichenocrinus</i> ; by F. B. MEEK, .....	15
III.—A Cretaceous Basin in the Sauk Valley, Minnesota; by J. H. KLOOS, .....	17
IV.—On a New Species of Fossil from the Lower Silurian; by U. P. JAMES, .....	26
V.—Glacial Action on Mount Katahdin; by JOHN DELASKI, ..	27
VI.—Table for the computation of Relative Altitudes; by CLEVELAND ABBE, .....	31
VII.—On the relative proportion of Iron and Sulphur in the “Pyrite” contained in several specimens of Iowa Coal; by RUSH EMERY, .....	34
VIII.—On the Occurrence in nature of Amorphous Mercuric Sulphide; by GIDEON E. MOORE, .....	36
IX.—Norian Rocks in New Hampshire; by C. H. HITCHCOCK, ..	43
X.—Contributions from the Laboratory of the Sheffield Scientific School. No. XXIII.—On the Composition of the Labra- dorite rocks of Waterville, N. H.; by E. S. DANA, .....	48
XI.—Recent German Arctic Explorations, .....	50

### SCIENTIFIC INTELLIGENCE.

*Chemistry and Physics.*—On a new method of nickel-plating, 54.—On the direct oxidation of carbon to mellitic acid, 55.—Gmelin-Kraut, *Handbuch der Chemie: Neues Handwörterbuch der Chemie*, 56.

*Geology and Natural History.*—Discovery of a remarkable Fossil Bird, O. C. MARSH, 56.—Occurrence of Diamonds in Xanthophyllite, P. VON JEREMEJEV: Triassic Sandstone of the Palisade Range: Geological Survey of India, 57.—Friderici Welwitschii Sertum Angolense: Hooker's *Icones Plantarum*, 58.—Structure of the Pistil in Primulacæ, 59.—Tieghem, Comparative Anatomy of the Cycadaceæ, Conifereæ, and Gnetaceæ, 60.—Tieghem, Anatomy of the flowers and fruit of Mistletoe (*Viscum album*), 61.—Clarence King's Geological Exploration of the 40th Parallel; Botany, 62.—Prof. Oliver's Flora of Tropical Africa: Heer, *Flora Fossilis Arctica*, Die Fossile Flora der Polarländer, 64.—On Kansas Vertebrate Fossils: Illustrated Catalogue of the Museum of Comparative Zoölogy. No. IV. Deep-Sea Corals, 65.

*Astronomy.*—On the mean motions of the four outer Planets, B. PEIRCE, 67.—The Eclipse: Star Maps, E. S. MARTIN, 68.—The Wisconsin Meteorite, I. A. LAPHAM: New Comet: Magnetometer Indications on September 7th, C. A. YOUNG, 69.—The first Appendix to the Washington Observations for 1869, 70.—Annals of the Dudley Observatory, Vol. II.: *Astronomische Tafeln und Formeln: The American Ephemeris and Nautical Almanac for 1874*, 71.

*Miscellaneous Scientific Intelligence.*—Masses of Meteoric Iron, 71.—On the Phosphorescence of the Eggs of the common Glow-worm, M. JOUSSET: Coast Survey Deep-Sea Dredging Expedition, 73.—Jay's Cabinet of Shells, 74.—*Obituary.*—Charles Babbage, 74.—Rev. J. A. Swan, 77.

*Miscellaneous Bibliography.*—A Report of Surgical Cases treated in the Army of the United States from 1865 to 1871, 77.—Appleton's American Annual Cyclopædia and Register of Important Events of the Year 1870: Boston Journal of Chemistry, 78.—An Elementary Treatise on Heat: A Treatise upon Terrestrial Magnetism: Sur les Tremblements de terre et les éruptions volcaniques dans

l'Archipel Hawaïen, en 1868, 79.—Uebersicht der seit 1847 fortgesetzten Untersuchungen über das von der Atmosphäre unsichtbar getragene reiche organische Leben: Crustacea Amphipoda borealia et arctica: Elbthalgebirge in Sachsen: Die Mineralogie, leichfasslicht dargestellt: Revue de Géologie pour les années 1867 et 1868, 80.

---

NUMBER XIV.

	Page
ART. XII.—Observations on Encke's Comet at the Dartmouth College Observatory; by C. A. YOUNG, .....	80
XIII.—Note on the occurrence of the "Primordial Fauna" in Nevada; by J. D. WHITNEY, .....	84
XIV.—Notice of the Address of Prof. T. Sterry Hunt before the American Association at Indianapolis; by J. D. DANA, .....	86
XV.—On the Age of the Quartzites, Schists and Conglomerates of Sauk County, Wisconsin; by R. IRVING, .....	93
XVI.—On Canon Moseley's views upon Glacier-motion; by W. MATHEWS, .....	99
XVII.—The Hot Springs and Geysers of the Yellowstone and Firehole Rivers; by F. V. HAYDEN. With maps, .....	105
XVIII.—Notes on Granitic Rocks; by T. STERRY HUNT, ..	115
XIX.—Brief Contributions to Zoölogy from the Museum of Yale College. No. XVII.—Descriptions of North American fresh-water Leeches; by A. E. VERRILL, .....	126

SCIENTIFIC INTELLIGENCE.

*Chemistry and Physics.*—On a new double salt of Thallium, FRISWELL, 139.—On Aurine, DALE and SCHORLEMMER: On the preparation of Camphoric acid, WREDEN, 140.—On the Synthesis of Oxaluric acid, HENRY: On the Coloring matter of Cochineal, LIEBERMANN and VAN DORP, 141.—On the Betaine of the Phosphorus Series, MEYER, 142.

*Geology and Natural History.*—Geological Survey of Ohio. Report of Progress in 1870, NEWBERRY, &c., 143.—Geological Survey of California, 144.—Note on the discovery of fossils in the "Winooski marble" at Scranton, Vt., E. BILLINGS, 145.—Yale College Expedition to the Rocky Mountains and Pacific Coast: Discovery of a tooth of a Mastodon in Massachusetts, E. HITCHCOCK: Mineral Resources of North Carolina, GENTH, 146.—Final Report of the United States Geological Survey of Nebraska and portions of the adjacent Territories, F. V. HAYDEN: MIERS, Contributions to Botany, Iconographic and Descriptive, &c., 147.—S. WATSON, Botany of a Geological Exploration of the Fortieth Parallel under Clarence King, 148.—Plants of Oregon, E. HALL: Saunders' Refugium Botanicum, 150.—The Inflorescence or Flower in Euphorbia, 151.—Botanical Necrology, 1870-71, 152.—Fish-nest in the sea-weed of the Sargasso Sea, Prof. AGASSIZ, 154.—On the Phosphorescence of Animals, PANCERI: Application of Photography to Illustrations of Natural History, A. AGASSIZ: Microscopy and the American Naturalist, 156.—Anatomisch-systematische Beschreibung der Alcyonarien, erste Abtheilung, &c., A. KÖLLIKER: Supplement to the Ophuridæ and Astrophytidæ, T. LYMAN, 157.

*Astronomy.*—Stellar Photography, 157.—Eclipse of the Sun of Dec. 12th, 158.

*Miscellaneous Scientific Intelligence.*—Chicago Academy of Sciences: The Natural Sciences in Public Schools, 158.

*Miscellaneous Bibliography.*—A Treatise on the Origin, Nature and Varieties of Wine, W. THUDICHUM and A. DUPRE, 159.—Journal of the Anthropological Institute of New York: Organic Philosophy, H. DOHERTY: Maps of the Geyser Region of the Yellowstone and Firehole Rivers, 160.
