

NUMBER CLXXXVI.

	Page
ART. XXXIX.—The Biela Meteors of November 27th, 1885; by H. A. NEWTON.....	409
XL.—The Ultra-violet Spectrum of Cadmium; by L. BELL.	426
XXI.—Occurrence of Topaz and Garnet in Lithophyses of Rhyolite; by W. CROSS.....	432
XLII.—Strain-effect of Sudden Cooling exhibited by Glass and Steel; by C. BARUS and V. STROUHAL.....	439
XLIII.—Origin of the Mica-Schists and Black Mica-Slates of the Penokee-Gogebic Iron-Bearing Series; by C. R. VAN HISE. (With Plate X.).....	453
XLIV.—Two masses of Meteoric Iron, of unusual interest; by W. E. HIDDEN.....	460
XLV.—New Genus of Lower Silurian Brachiopoda; by S. W. FORD.....	466

SCIENTIFIC INTELLIGENCE.

Physics and Chemistry.—Law of Gaseous Flow, HIRN, 468.—Existence of Nitryl Chloride, WILLIAMS, 469.—New Oxide of Zirconium. and on its use in the determination of this element, BAILEY: Determination of Vanadium by means of Oxycellulose, WITZ and OSMOND, 470.—Physical Properties of the Marsh-gas series of Hydrocarbons, BARTOLI and STRACCIATI: Synthesis of Conine, LADENBURG, 471.—Chemical Action of Bacterium aceti, BROWN, 472.

Geology and Mineralogy.—Occurrence of Olenellus (?) Kjerulfi in America, F. G. MATTHEW, 472.—Geological formations underlying Washington and vicinity, S. TOWNSEND, 473.—Theories of Ore-deposits, M. E. WADSWORTH, 474.—Slaty cleavage and allied rock structures, A. HARKER: Index der Krystallformen der Mineralien von Dr. V. GOLDSCHMIDT, 475.—Catalogue of Meteorites: Some recently described minerals, 476.—Various forms in which Gold occurs in nature, W. P. BLAKE, 477.

Botany.—Handbook of Plant Dissection, T. C. ARTHUR, C. N. BARNES and J. M. COULTER, 477.—Japanese Botany, MAXIMOWICZ: American Desmidiæ, G. LAGERHEIM, 478.—Notarisia, G. B. DE TONI and D. LEVI: Phycologia Mediterranea, F. ARDISSONE, 479.

Astronomy.—Traité de la détermination des orbites des comètes et des planètes, par C. D'OPPOLLZER: Publications of the Washburn Observatory of the University of Wisconsin, 480.

Miscellaneous Scientific Intelligence.—Elisha Mitchell Scientific Society, 480.—International Geological Congress: National Academy of Sciences: Library of the late Professor Guyot: Note to S. W. Ford's article, 481.

Obituary.—CHARLES UPHAM SHEPARD, 482.

INDEX TO VOLUME XXXI. 484.
