

Number 230.

	Page
ART. XV.—Magnetic Field in the Jefferson Physical Laboratory; by R. W. WILLSON.....	87
XVI.—Cretaceous Plants from Martha's Vineyard; by D. WHITE. (With Plate II).....	93
XVII.—Review of Dr. R. W. Ells's Second Report on the Geology of a Portion of the Province of Quebec; by C. D. WALCOTT.....	101
XVIII.—Measurement by Light-waves; by A. A. MICHELSON. (With Plate III).....	115
XIX.—Lansfordite, Nesquehonite, a new Mineral, and Pseudomorphs of Nesquehonite after Lansfordite; by F. A. GENTH and S. L. PENFIELD. (With Plate IV).....	121
XX.—Weber's Law of Thermal Radiation; by W. FERREL.	137
XXI.—Tracks of organic origin in rocks of the Animikie group; by A. R. C. SELWYN.....	145

SCIENTIFIC INTELLIGENCE.

Chemistry and Physics.—Periodic Law, MENDELÉEFF, 147.—Sonorous Sand in the Peninsula of Sinai, H. C. BOLTON, 151.—Electromagnetic effect of Convection, F. HIMSTEDT: Mechanical equivalent of Light, O. TUMLIRZ, 153.—The Bolometer, R. v. HELMHOLTZ: Cavendish Experiment, C. V. BOYS: Report on the Magnetic Results of the Voyage of H. M. S. Challenger, 154.

Geology and Mineralogy.—Report of the State Geologist of New York for 1888, 155.—A new Reptile from Saxony, G. BAUR, 156.—American Geological Society, 158.—New fossils from the Lower Cambrian, C. D. WALCOTT: A *Lingula* with cast of its peduncle, C. D. WALCOTT: Cambrian fossils in the Salt Range, India, A. WARTH: Wulfenite from Sing Sing, N. Y.: Rutile-Edisonite, 159.—Native Gold in Calcite, J. S. DILLER: Brief Notices of some recently described Minerals, 160.—Native Arsenic from Colorado, C. HERSEY: Catalogue of Minerals found in New Jersey, F. A. CANFIELD, 161.

Botany and Zoology.—Hybrids, G. DE SAPORTA, 161.—Cause of the ascent of sap, J. BOEHM: Memoirs of the Torrey Botanical Club, L. H. BAILEY and I. C. MARTINDALE: Nitrification of Ammonia, T. SCHLIESING: Part which Ammonia plays in the nutrition of higher plants, A. MÜNTZ, 162.—Fixation of Nitrogen by Leguminous plants, E. BRÉAL: Economic Mollusca of New Brunswick, W. F. GANONG: Bibliotheca Zoologica, O. TASCHENBERG, 163.

Miscellaneous Scientific Intelligence.—American Metrological Society, 163.—Royal Society of N. S. Wales: Reports of Examinations of Waters and Water Supply during 1886–89, E. W. HILGARD, 165.—*Arthrolycosa antiqua* of Harger, 166.

Obituary.—CHARLES ALBERT ASHBURNER, 166.
