## Number 259.

	Page.
ART. I.—The Change of Heat Conductivity on passing Isothermally from Solid to Liquid; by C. BARUS.....	1
II.—Polybasite and Tennantite from the Mollie Gibson Mine in Aspen, Col.; by S. L. PENFIELD and S. H. PEARCE .....	15
III.—Post-Laramie Deposits of Colorado; by W. CROSS....	19
IV.—Alkali-Metal Pentahalides; by H. L. WELLS and H. L. WHEELER. With their Crystallography; by S. L. PENFIELD. ....	42
V.—Fossils in the "Archæan" rocks of Central Piedmont Virginia; by N. H. DARTON .....	50
VI.—Notes on the Cambrian Rocks of Virginia and the Southern Appalachians; by C. D. WALCOTT.....	52
VII.—Synthesis of the minerals Crocoite and Phænicochroite; by C. LUDEKING.....	57
VIII.—A Hint with respect to the Origin of Terraces in Glaciated Regions; by R. S. TARR.....	59
IX.—Occurrence of a Quartz Boulder in the Sharon Coal of Northeastern Ohio; by E. ORTON .....	62
X.—A Method of Increasing the Range of the Capillary Electrometer; by J. WHITMORE. ....	64

### SCIENTIFIC INTELLIGENCE.

*Chemistry and Physics.*—Luminosity of Coal Gas Flames, LEWES, 70.—Measurement of Osmotic Pressure, TAMMANN, 71.—Coefficient of Molecular Depression of Phenol, JUILLARD and CURCHOD: Determination of Vapor Density under Diminished Pressure, SCHALL: Jahrbuch der Chemie, R. MEYER, 72.—Chemical Calculations with explanatory notes, problems and answers, R. L. WHITELEY: Contributions to the knowledge of the discharge of the Ruhmkorff coil, TOM MOLL, 73.—Photography in Colors, G. LIPPMANN, 75.—Dispersion of the Ultra Red Rays, Dr. RUBENS: Electrical Resistance of the Human Body, M. VON FREY, 76.

*Geology and Mineralogy.*—History of Volcanic Action in the Area of the British Isles, A. GEIKIE, 76.—New Jersey Geological Report for 1891, J. C. SMOCK, 77.—Progress of the Kentucky Geological Survey, J. R. PROCTER: Kentucky Geological Survey: Report on Petroleum Natural Gas and Asphalt Rock of Western Kentucky, E. ORTON: Geological Survey of Alabama, SMITH: Mannington Oil-field and the history of its development, I. C. WHITE, 78.—New Lower Silurian Lamellibranchiata, chiefly from Minnesota rocks, E. O. ULRICH: Der Peloponnes, Versuch einer Landeskunde auf geologischer Grundlage, nach Ergebnissen einiger Reisen, A. PHILIPPSON: Chiasolite in fossiliferous metamorphic slates of Portugal J. F. N. DELGADO: Striated Garnet from Buckfield, Maine, W. S. BAYLEY, 79.—Blowpipe Analysis, J. LANDAUER, 80.

*Miscellaneous Scientific Intelligence.*—The Great Earthquake of Japan, 1891, J. MILNE and W. K. BURTON, 80.—Congress of Mathematicians and Astronomers: American Association, 81.

*Obituary*—LEWIS MORRIS RUTHERFURD, 82.
