

## Number 260.

	Page.
ART. XI.—Relations between the Surface Tensions of Liquids and their Chemical Constitution; by C. E. LINEBARGER .....	83
XII.—Gold Deposit at Pine Hill, Cal.; by W. LINDGREN....	92
XIII.—New occurrence of Ptilolite; by W. CROSS and L. G. EAKINS .....	96
APPENDIX.—Note on the Constitution of Ptilolite and Mor-denite; by F. W. CLARKE .....	101
XIV.—Separation of Magnesium Chloride from the Chlorides of Sodium and Potassium by means of Amyl Alcohol; by R. B. RIGGS .....	103
XV.—Great Shear-zone near Avalanche Lake in the Adirondacks; by J. F. KEMP .....	109
XVI.—Herderite from Hebron, Maine; by H. L. WELLS and S. L. PENFIELD .....	114
XVII.—Method for the Iodometric Determination of Nitrates; by F. A. GOOCH and H. W. GRUENER.....	117
XVIII.—Some Alkaline Iodates; by H. L. WHEELER. With Crystallographic Notes; by S. L. PENFIELD ....	123
XIX.—Development of the Brachiopoda. Part II; by C. E. BEECHER. (With Plate I).....	133
XX.—Some Double Halides of Silver and the Alkali-metals; by H. L. WELLS and H. L. WHEELER. With their Crystallography; by S. L. PENFIELD.....	155
XXI.—Cæsium and Rubidium Chloraurates and Bromaurates; by H. L. WELLS and H. L. WHEELER. With their Crystallography; by S. L. PENFIELD .....	157
XXII.—Preliminary Note of a New Meteorite from Kenton County, Kentucky; by H. L. PRESTON .....	163
XXIII.—Additional observations on the Jura-Trias trap of the New Haven Region; by J. D. DANA .....	165
XXIV.—Notes on Mesozoic Vertebrate Fossils; by O. C. MARSH. (With Plates II-V.).....	171

## SCIENTIFIC INTELLIGENCE.

*Miscellaneous Scientific Intelligence*—Natural Science: A monthly review of Scientific Progress: Catalogue of Scientific Papers (1874-1883): Experiments with alternate currents of high potential and high frequency, by Nikola Tesla, 170,
