

## NUMBER LXIV.

	Page
ART. IX.—Researches in Acoustics; by ALFRED M. MAYER,	81
X.—On the so-called Land Plants from the Lower Silurian of Ohio; by J. S. NEWBERRY,.....	110
XI.—A Criticism upon the Constructional Hypothesis; by C. E. DUTTON,.....	113
XII.—Descriptions of two new Species of Fishes from the Bermuda Islands; by G. BROWN GOODE,.....	123
XIII.—On an optical method of studying the Vibrations of Solid Bodies; by OGDEN N. ROOD,.....	126
XIV.—The Phonograph; by CHAS. A. MOREY,.....	130

## SCIENTIFIC INTELLIGENCE.

- Chemistry and Physics.*—The so-called Antimony blue, KRAUSS: On the Alloys of Hydrogenium with Palladium, Potassium and Sodium, TROOST and HAUTEFEUILLE, 132.—On a Lactic acid of the Allyl series, PINNER, 134.—Occurrence of Leucin in the fresh juice of the Vetch, BESANEZ: On Protamine, a new Base from the Spermatozooids of the Rhine salmon, MIESCHER, 135.—On the Aqueous lines in the Solar Spectrum at high altitudes, CROCE-SPINELLI and SIVEL, 136.—Apparent Adhesion, STEFAN, 137.—Effect of Magnetism on an Electric discharge in rarefied gases, DE LA RIVE and SARASIN, 138.—Frictional Electricity, JOULIN: Note to Prof. Cook's monograph on the Vermiculites, 139.—Will's Tables for Qualitative Chemical Analysis Milk Analyses; by J. ALFRED WANKLYN: Busen's Flame Reactions, 140.
- Geology and Natural History.*—Addition to the Paper "Volcanic Energy: an attempt to develop its true Origin and Cosmical Relations; by ROBERT MALETT: Metamorphic products from the burning of coal-beds of the Lignitic Tertiary in Dakota and Montana, ALLEN, 141.—Lignitic formations north of the parallel of 49°, 142. Marine Champlain Deposits on lands north of Lake Superior: Climate of the Champlain Period: Fossil Cockroaches from the Carboniferous of Cape Breton: Fossil Elephant and Mastodon in California, 143.—Bulletin of the Cornell University: Memoire per servire alla Descrizione della Carta Geologica d'Italia: Note on Prof. J. Lawrence Smith's collection of his Memoirs; by GEORGE J. BRUSH, 144.—Cuarto Appendice al Reino Mineral de Chile i de las Republicas vecinas, publicado en la segunda edicion de la Mineralojia, de IGNACIO DOMEYKO: Veszelyite: On Livingstoneite, a new mineral; by MARIANO BARCENA, 145.—On the Plagopterinæ and the Ichthyology of Utah; by E. D. COPE: Annotated List of the Birds of Utah; by H. W. HENSHAW: Bulletin of the Buffalo Society of Natural Sciences: Anatomy of the Invertebrata; by C. W. VON SIEBOLD: Maps of the Geyser Basins, on Madison River, 146.—Physiological Groups in the Vegetable Kingdom, A. DECANDOLLE, 147.—Primeval Vegetation in its relation to the Doctrines of Natural Selection and Evolution, W. C. WILLIAMSON, 150.—Annual Address of the President of the Natural History Society of Montreal, J. W. DAWSON, 151.—Robert Shuttleworth and his Collections, 155.
- Astronomy.*—Polariscopic Observations of Coggia's Comet: Spectrum of Coggia's Comet, 156.—Observations of the Aurora Borealis made by M. E. WING, 157.
- Miscellaneous Scientific Intelligence.*—Smithsonian Report for 1872: Seventh Annual Report of the Trustees of the Peabody Museum of American Archaeology and Ethnology: Geological Survey of Hokkaido, by H. S. MUNROE, 158.—Suppléments aux Notes sur les Tremblements de Terre ressentis de 1840 a 1868: Blue Pigment of the Egyptians: Magnetic Observatory in China, 159.—Festschrift zur Feier des hundertjährigen Bestehens der Gesellschaft Naturforschender Freunde zu Berlin: American Association for the Advancement of Science: French Association for the Advancement of Science: Academy of Sciences, Paris: University of Oxford: Half Hour Recreations in Popular Science: On the so-called Land-Plants of the Lower Silurian, 160.
