CONTENTS.

Number 207.

ART. XIX.—Effect of High Pressures on the Physical and Chemical Behavior of Solids; by J. Johnston and L. H. Adams .................................................. 205

XX.—Coefficients and Exponent of the Radiation Equation, \( K_T = e^{T_s^a} \), in the Earth's Atmosphere; by F. H. Bigelow ............................................ 254

XXI.—Simple Screw Micrometer; by C. Barus ............................. 267

XXII.—Pseudomorphs of Limonite after Marcasite; by H. B. North ................................................................. 270

XXIII.—Floating Islands of Halemaumau; by F. A. Perret .......... 273

XXIV.—Hydrolysis of Alkyl Metallic Sulphates; by G. A. Linnhart ................................................................. 283

XXV.—Delafose, a Cuprous Metaferrite from Bisbee, Arizona; by A. F. Rogers ..................................................... 290

XXVI.—Electric Charges of the \( \alpha \) - and \( \beta \)-Rays; by J. Danysz and W. Duane ............................................. 295

XXVII.—Resolution of Interference Fringes; by C. Barus .......... 308

XXVIII.—Purification of Barium Sulphate precipitated in the Determination of Barium; by F. A. Gooch and D. U. Hill ......................................................... 311

XXIX.—Significance of the Piltdown Skull; by G. G. MacCurdy ................................................................. 315

SCIENTIFIC INTELLIGENCE.

Miscellaneous Scientific Intelligence—Transactions of the Astronomical Observatory of Yale University, 335.—Bedrock, a Quarterly Journal: Outline of Courses in Botany, Microscopy, and Pharmacognosy, H. Kraemer, 336.
