

CONTENTS TO VOLUME XXXVIII.

Number 223.

	Page
ART. I.—Revised Geologic Time-table for North America; by C. SCHUCHERT and J. BARRELL	1
II.—Relations of the Alexandrian Series in Illinois and Missouri to the Silurian Section of Iowa; by T. E. SAVAGE	28
III.—New Occurrence of Scapolite; by J. STANSFIELD	37
IV.—Improvement of the Barium Sulphate Determination of Sulphur in Soluble Sulphates; by W. A. TURNER	41
V.—Unconformity in Narragansett Basin of Rhode Island and Massachusetts; by G. F. LOUGHLIN and L. A. HECHINGER	45
VI.—Cordaitean Wood from Indiana Black Shale; by MARION G. ELKINS and G. R. WIELAND. (With Plates I and II.)	65
VII.—Occurrence of Pyroxenite and Hornblendite in Bahia, Brazil; by H. S. WASHINGTON	79

SCIENTIFIC INTELLIGENCE.

- Chemistry and Physics*—Atomic Weight of Lead from Ceylon Thorite, F. SODDY and H. HYMAN: Extraction of Germanium from the Waters of Vichy, J. BARDET.—Acid Salts of Dibasic Acids, E. JUNGFLIECH and P. LANDRIEU: Fluorsulphonic Acid, O. RUFF and H. J. BRAUN: Density and Atomic Weight of Neon, A. LEDUC: Chart of the Carbon Compounds, C. W. CUNO, 92.—New X-Ray Spectrograph, M. DE BROGLIE: Ultra-violet Limit of the Solar Spectrum, A. WIGAND, 93.—Change in a Lunar Crater, W. H. PICKERING: Propagation of Light in Dispersing Media, A. SOMMERFELD and L. BRILLOUIN, 95.—Two New Sciences, G. GALILEI, 97.—Norwegian Aurora Polaris Expedition, 1902-1903, Dr. BIRKELAND, 98.
- Geology and Mineralogy*—Geology of Saratoga Springs, CUSHING and RUEDEMANN, 99.—Ontogeny of Paradoxides and Isotelus, RAYMOND: Development in fossil Cephalopoda, J. P. SMITH: Tanner's Creek section of Cincinnati Series Indiana; CUMINGS and GALLOWAY, 100.—Mud Cracks open under Water, E. S. MOORE, 101.—Engineering Geology, H. RIES and T. L. WATSON: U. S. Bureau of Mines, HOLMES: Geological Survey Canada, 102.—New Geologic Map of the State of New Jersey: Hawaiian Volcano Observatory, 103.—Common Minerals and Rocks, HOBBS: Minerals of the Black Hills, ZIEGLER: Kristallberechnung, GOSSNER, 104.
- Botany and Zoology*—Weed Flora of Iowa, L. H. PAMMEL, 104.—Irritability of Plants, J. C. BOSE: Introduction to Botany, J. Y. BERGEN and O. W. CALDWELL: Zentral-Afrika-Expedition 1907-1908.—Elementary Principles of General Biology, J. F. ABBOTT: Biology, General and Medical, J. McFARLAND, 106.—Starfishes of the North Pacific Coast, A. E. VERRILL: Memoirs of the Queensland Museum, R. HAMLYN-HARRIS, 107.—Ungulate Mammals in the British Museum: Annual Report Field Museum, 108.
- Astronomy and Mathematics*—Introduction to Celestial Mechanics, F. R. MOULTON, 108.—Memorabilia Mathematica, R. E. MORITZ: Allegheny Observatory, 109.—U. S. Naval Observatory, Volume VIII: Observatory of the University of Virginia: Carother's Observatory: Napier Tercentenary Celebration: Logarithmic Tables, C. I. MOORE, 110.
- Miscellaneous Scientific Intelligence*—U. S. National Museum, R. RATHBUN: U. S. Coast and Geodetic Survey: Carnegie Institution of Washington, 111.—Annual Report Board of Scientific Advice for India 1912-13, 112.—American Philosophical Society: San Francisco Meeting of A. A. A. S., 113.—British A. A. S.: A Theory of Interest: Franklin Institute award Elliott Cresson Medals: Science Reports of the Tôhoku Imperial University, 114.
- Obituary*—E. SUESS, 115.—A. E. BARLOW; A. F. CHAMBERLAIN; J. J. MYERS; P. H. PYE-SMITH; J. W. SWAN; M. P. E. L. VAN TIEGHEM; K. CHUN, 116.
