

Number 231.

	Page
ART. XV.—The Salton Sea; by D. T. MACDOUGAL.....	231
XVI.—Illustrations of the Stem Structure of <i>Tietea Singularis</i> ; by O. A. DERBY.....	251
XVII.—Petrographic Evidence on the Origin of the Catahoula Sandstone of Texas; by M. I. GOLDMAN.....	261
XVIII.—Age of the Igneous Rocks of the Adirondack Region; by H. P. CUSHING.....	288
XIX.—Unstable Chromium Sesquioxide, and Corrections of Previous Work on the Heat Effect of Chromium and Aluminum Sesquioxides in Fusions with Sodium Peroxide; by W. G. MIXTER.....	295
XX.—Note on the Shape of Pebbles; by H. E. GREGORY..	300
XXI.—Relation of the Late Tertiary Faunas of the Yorktown and Duplin Formations; by JULIA A. GARDNER..	305

SCIENTIFIC INTELLIGENCE.

Chemistry and Physics—Determination of Cuprous and Cupric Sulphides in Mixtures of the Two, E. POSNJAK: Feldspar as a Possible Source of Potash, A. S. CUSHMAN and G. W. COGGESHALL, 311.—Qualitative Test for Water, E. R. WEAVER: The Rare Earths, S. I. LEVY, 312.—Ampère Molecular Currents, H. K. ONNES, 313.—Elements of Electricity and Magnetism, W. S. FRANKLIN and B. MACNUTT: Molecular Physics, J. A. CROWTHER, 314.—General Physics: Electricity, Electromagnetic Waves and Sound, J. A. CULLER, 315.

Geology—Thirty-fifth Annual Report of the Director of the U. S. Geological Survey, G. O. SMITH: Publications of the United States Geological Survey, 316.—Sixth Biennial Report of the Commissioners of the State Geological and Natural History Survey of Connecticut for 1913-14: Topographic and Geologic Survey of Pennsylvania, R. R. HICE: The Problem of Volcanism, J. P. IDINGS, 318.—Pleistocene Mammals of Iowa, O. P. HAY, 320.—Notes on Agelacrinidæ and Lepadocystinæ, with descriptions of *Thresherodiscus* and *Brockocystis*, A. F. FOERSTE: Introduction to the Study of Fossils (Plants and Animals), H. W. SHIMER: Paleontology of Preston County: Fossil fauna of the Conemaugh rocks, W. A. PRICE, 322. A *Beatricea*-like organism from the Middle Ordovician, P. E. RAYMOND: Middle Triassic marine invertebrate faunas of North America, J. P. SMITH: New Miocene Coleoptera from Florissant, H. F. WICKHAM, 323.

Miscellaneous Scientific Intelligence—Insects Injurious to the Household, G. W. HERRICK, 323.—Germ-cell Cycle in Animals, R. W. HEGNER: Dynamic Evolution; A Study of the Causes of Evolution and Degeneracy, C. L. REDFIELD: Physikalische Chemie der Zelle und der Gewebe, R. HÖBER, 324.—Infection and Resistance, H. ZINSSER: British Museum Publications, 325.

Obituary—A. W. PHILLIPS: C. F. BRACKETT: B. SHARP: SIR G. NARES: J. S. HARDING: F. W. RUDLER, 326.
