

Number 5.

	Page
ART. XXV.—Post-Glacial Warping of Newfoundland and Nova Scotia; by R. A. DALY	381
ART. XXVI.—New Camels in the Marsh Collection; by R. S. LULL	392
ART. XXVII.—Leptauchenia Leidy and Cyclopidius (Pithe- cistes) Cope, etc.; by M. R. THORPE.....	405
ART. XXVIII.—A Potamogeton from the Upper Cretaceous; by E. W. BERRY	420
ART. XXIX.—Additional Notes on the Crystallography and Composition of Boulangerite; by E. V. SHANNON.....	423
ART. XXX.—The Oriskany Sandstone Faunule at Oriskany Falls, New York; by H. N. EATON	427
ART. XXXI.—Two Petrified Palms from Interior North America; by N. E. STEVENS	431
ART. XXXII.—The Isomorphic Relations of the Sulphosalts of Lead, Silver and Copper; by W. F. FOSHAG.....	444
ART. XXXIII.—The Occurrence of Calcareous Sandstone in the Recent Delta of Fraser River, British Columbia, Canada, by W. A. JOHNSTON	447
ART. XXXIV.—The Age of the Recent Delta of Fraser River, British Columbia, Canada; by W. A. JOHNSTON	450

SCIENTIFIC INTELLIGENCE.

- Chemistry and Physics*—Separation of Gallium from Indium and Zinc by Fractional Crystallization of the Cæsium-Gallium Alum, P. E. BROWNING and E. PORTER, 453.—Text-Book of Practical Chemistry, G. F. HOOD and J. A. CARPENTER: Dictionary of Chemical Solubilities, Inorganic, A. M. COMEY and D. A. HAHN, 454.—Inorganic Chemistry for Schools and Colleges, J. L. HOWE: Luminous phenomena in the Lilienfeld tube, J. E. LILIENFELD and F. ROTHER, 455.—Observations on Soaring Flight, E. H. HANKIN, 456.—Elementary Calculus, W. F. OSGOOD: Space, Time and Gravitation, A. S. EDDINGTON, 457.—Principle of Relativity, H. W. CARR, 458.
- Geology*—Zur Älteren Geschichte des Diskontinuitätsproblems in der Biogeographie, N. v. HOFSTEN: Recent Molluscs of Gulf of Mexico, etc., C. J. MAURY, 459.—Brachiopoda Triadica, C. DIENER: Cephalopoda Dibranchiata, E. v. BÜLOW-TRUMMER: Coal in Great Britain, W. GIBSON: Monograph of the British Ordovician and Silurian Bellerophonacea, F. R. C. REED, 460.—West Virginia Geological Survey, I. C. WHITE, 461.
- Zoology and Botany*—Sanitary Entomology, W. D. PIERCE, 461.—Embryology of Chick; B. M. PATTEN: University of Iowa Studies in Natural History, C. C. NUTTING: Origin and Development of Nervous System, C. M. CHILD, 462.—The Cactaceæ, N. L. BRITTON and J. N. ROSE: Phytoplankton of the inland lakes of Wisconsin, G. M. SMITH, 463.—Introduction to Bacterial Diseases in Plants, E. F. SMITH: Text-book of Pastoral and Agricultural Botany, J. W. HARSHBERGER, 464.—Heredity and Evolution in Plants, C. S. GAGER: Diseases of Economic Plants, F. L. STEVENS: Nature-Study of Plants, T. A. DYMES: Chemistry of Plant Life, R. W. THATCHER, 465.
- Miscellaneous Scientific Intelligence*—Annual Report Carnegie Foundation, H. S. PRITCHETT and R. A. FRANKS: National Academy of Sciences, 466.—Science News Bulletin: French-English Medical Dictionary: Laboratory Manual for Detection of Poisons and Powerful Drugs, 467.—Introduction to Chemical Pharmacology: New York State Income Tax Procedure, 1921, 468.
