Contents

Number 131.

Dacites of Lassen Peak, California ............. H. Williams 385
Depositional Features of the "Parting"
Quartzite near Alma, Colorado ............. Q. D. Singewald 404
A Stony Meteorite from Colorado ............. H. H. Nininger 414
Two New Genera of Late Paleozoic Cephalopods
from Central Asia .......................... A. K. Miller 417
Crystallography of Some Rare Earth Halides .... A. Pabst 426
Tangential Master-Streams of the Adirondack Drainage ......... R. Ruedemann 431
Age of the Black Shale in South-Central Kentucky ............. T. E. Savage and A. H. Sutton 441
Pre-Cretaceous Soil Horizon, Western Kentucky A. H. Sutton 449
Radioactivity of Natural Waters and Artesian Wells ............. J. A. Hootman 453

Scientific Intelligence.

Chemistry and Physics

A Textbook of Practical Physical Chemistry, by Fajans and Wüst; The First Course in Quantitative Analysis, by F. H. Fish; Leçons de Chimie Analytique, by A. Jouniaux; Annual Survey of American Chemistry; Essentials of Quantitative Chemical Analysis, by W. W. Scott ......................... H. W. Poole 464

The Magnetic Properties of Matter, by P. Kapitza; Propagation d'une Onde Sonore dans l'Atmosphère, by H. Galbrun; The Mathematical Papers of Sir William R. Hamilton; Cours de Physique, by A. Lafay ............. F. E. Beach 465

Geology

Paleobotany of the Eocene of Texas, by O. M. Ball; Die Deutschost-afrikanischen Flugsaurier, etc., by H. Reck ............. C. Schuchert 468

Miscellaneous Scientific Intelligence

An Introduction to Biochemistry, by R. J. Williams ............. L. B. Mendel 473

Humus Layer in Forests of Northeastern U. S., by Romell and Hieberg L. G. Romell 475

Publications Recently Received .......................... 477

Obituary ........................................... 478

Richard Alexander Fullerton Penrose, Jr. ............................. C. Schuchert 479
