

Number 46.

	Page
ART. XXI.—The Reflection of X-rays by Barite; by S. K. ALLISON,	261
ART. XXII.—The Stratigraphy of the Petroliferous Area of Eastern Mexico, Part I; by W. A. VERWIEBE,..	277
ART. XXIII.—The Structure of the Bearpaw Mountains, Montana; by F. REEVES,	296
ART. XXIV.—Sun Spots and the Frequency of Tropical Cyclones; by S. S. VISHER,	312
ART. XXV.—Paleozoic Formation Margins in Missouri; by E. B. BRANSON,	317
ART. XXVI.—An Iron Amphibole similar to Hudsonite from Custer County, Idaho; by E. V. SHANNON,....	323
ART. XXVII.—A Remarkable Fossil Echinoderm Fauna in the East Indies; by F. SPRINGER,.....	325
ART. XXVIII.—The Age of the Spokane Glaciation; by J. H. BRETZ,.....	336

SCIENTIFIC INTELLIGENCE.

Chemistry and Physics.—Chemistry in the Twentieth Century, 343.—What Industry Owes to Chemical Science: R. B. PILCHER and F. BUTLER-JONES: Aniline and its Derivatives, P. O. GROGGINS: Colloid Chemistry, THE SVEDBERG, 344.—The Production of Intense Magnetic Fields, 345.—The Theory of Optics, A. SCHUSTER and J. W. NICHOLSON: A Treatise on Light, R. A. HOUSTON, 346.—The Elements of General Science, O. W. CALDWELL and W. L. EKENBERRY: The Mechanical Properties of Fluids, 347.

Geology.—Grundzüge der Paläontologie (Paläozoologie), K. A. VON ZITTEL: Geologic Literature on North America, 1785-1918, J. M. NICKLES: Silurian Cephalopods of Northern Michigan, A. F. FOERSTE, 348.—Palæontology of the Silurian Rocks of Arisaig, Nova Scotia, F. H. McLEARN: Devonian Crinoids of New York, W. GOLDRING, 349.—Paleontology of the Beekmantown Series at Levis, Quebec, T. H. CLARK, 350.—Cambrian and Ozarkian Brachiopoda, Ozarkian Cephalopoda and Notostraca, C. D. WALCOTT: La Géologie Sismologique, F. DE MONTESSUS DE BALLORE, 351.—Rogers on Kempite: Correction, 352.

Miscellaneous Scientific Intelligence.—Celebration of the Rensselaer Polytechnic Institute, 353.
